

## Variety Description

1. Reference number client : TLP 1681  
 2. Reference number foreign authority :  
 3. Breeder's reference : 92.052.135-01  
 4. Applicant : Testcentrum voor Si ergewassen B.V., HILLEGOM
- 
5. Botanical name of taxon : Tulipa L.  
 6. Common name of taxon : Tulip  
 7. Variety denomination : Choice  
 8. Document number and date protocols or guidelines : TG/115/3 d.d. 21-10-1988  
 9. Document number and/or date of national guidelines :  
 10. Client : Raad voor plantenrassen, Ede, NL  
 11. Test institution : Naktuinbouw, Wageningen, NL  
 12. Period of testing : 2007  
 13. Date and place of issue of document : 25-10-2007, Wageningen
- 

14. Group : (if characteristics of number 15 are used for grouping, they are marked with a "G" in that number).

| No. | Characteristics    | States of expression | Note | Remarks |
|-----|--------------------|----------------------|------|---------|
| .1  | Group              | Triumph tulip        | 3    |         |
| 15. | Flower: main color | deep red             | 7    |         |

## 15. Characteristics included in the protocols or guidelines

| No.  | Characteristics                                       | States of expression | Note | Remarks |
|------|---|----------------------|------|---------|
| 1.   | Plant: height   | medium               | 5    |         |
| 2.   | Plant: number of leaves                               | medium to many       | 6    |         |
| 3.   | Leaf: length  | medium to long       | 6    |         |
| 4.   | Leaf: width   | medium to broad      | 6    |         |
| 5.   | Leaf: variegation at margin                           | absent               | 1    |         |
| 6.   | Leaf: anthocyanin coloration                          | absent               | 1    |         |
| 7.   | Leaf: intensity of anthocyanin coloration             | not applicable       | -    |         |
| 8.   | Leaf: distribution of anthocyanin coloration          | not applicable       | -    |         |
| 9.   | Leaf: undulation of margin                            | weak                 | 3    |         |
| 10.  | Flower: type  | single               | 1    |         |
| 11.  | Flower: length  | long to very long    | 8    |         |
| 12.  | Flower: diameter                                      | small to medium      | 4    |         |
| 13.  | Flower: ratio length/diameter                         | very small           | 1    |         |
| 14.  | Flower: shape   | ovoid                | 3    |         |
| 15.G | Flower: main color                                    | deep red             | 7    |         |
| 16.  | Flower: number of colors on outer side                | two                  | 2    |         |
| 17.  | Flower: distribution of secondary color on outer side | edged only laterally | 1    |         |
| 18.  | Flower: incisions of tepal                            | absent               | 1    |         |
| 19.  | Flower: number of incisions of tepal                  | not applicable       | -    |         |

## 15. Characteristics included in the protocols or guidelines

| No. | Characteristics  | States of expression          | Note | Remarks       |
|-----|--|-------------------------------|------|---------------|
| 20. | Flower: depth of incisions of tepal                                  | not applicable                | -    |               |
| 21. | Flower: shape of outer tepal   | broad-elliptic                | 3    |               |
| 22. | Flower: curvature of distal half of longitudinal axis of outer tepal | recurved to straight          | 4    |               |
| 23. | Flower: shape of tip of outer tepal                                  | rounded                       | 4    |               |
| 24. | Flower: shape of inner tepal   | broad-obovate                 | 8    |               |
| 25. | Flower: color of middle third of outer side of inner tepals          | ca. RHS 45 B                  | -    | red           |
| 26. | Flower: color of margin of outer side of inner tepals                | ca. RHS 9 A                   | -    | yellow        |
| 27. | Flower: main color of macule on inner side of inner tepals           | between RHS 12 A and RHS 13 A | -    | yellow orange |
| 28. | Flower: color of margin of macule on inner side of inner tepals      | -                             | -    |               |
| 29. | Stamen: number of colors of filament                                 | two                           | 2    |               |
| 30. | Stamen: color of basal half of filament                              | yellow                        | 3    |               |
| 31. | Stamen: color of distal half of filament                             | black                         | 6    |               |
| 32. | Stamen: color of pollen  | yellow and black or purple    | 3    |               |

## 16. Similar varieties and differences in relation to those varieties

| Denomination of similar variety | Characteristics in which the similar variety is different | State of expression of similar variety | State of expression of candidate variety |
|---------------------------------|---|--|--|
| -                               |   |  |  |

## 17. Additional information

- a) Additional data: -
- b) Remarks : -
